

GREEN AREA SHOW – event for professionals

The great countdown to the next edition of the **GREEN AREA SHOW** has begun. The first gardening show in Poland with live machinery demonstrations will be held on September 9-11 at the Wola Hippodrome in Poznań. Leaders of the gardening and public utility machinery, equipment and tools sector, as well as well-known suppliers representing other horticultural categories, invite you to the event.

Innovative formula of the event

The **GREEN AREA SHOW** is a completely new event in the horticultural industry in the B2B formula, addressed to professional visitors. The first edition of the Fair was popular with urban green space managers, representatives of renowned dealerships, landscape architects and garden construction companies, owners of hotel centres, parks, golf courses, garden centres, nurseries and garden farms, as well as employees of commercial chains and road managers. The fair is not only shows of gardening, municipal and golf machines, devices and tools. It is also a very good opportunity to present new products for 2022. More than half of the visitors of the previous edition emphasised that they came to the Fair to see what the producers prepared for the coming season. Certainly, there will be plenty of them this year. To distinguish innovative products that set trends in the industry, the MTP Gold Medal competition will be held, during which the most innovative gardening products and machines will be awarded.

Live machine shows

The highlight of the event will be dynamic demonstrations of machinery, devices and gardening, municipal and golf equipment on demonstration surfaces. Fair participants in the outdoor area will be able to learn about the practical advantages of the most famous manufacturers of municipal machinery. There will be brands such as: AVANT, HONDA, HUSQVARNA, JOHN DEERE, ISEKI, KUBOTA, WIEDENMANN or VICTUS with the OLEO MAC brand. There will also be representatives of other horticultural sectors such as the providers of sprayers, fertilizers, seeds, peat, substrates or garden chemicals. During the Fair, you will be able to talk to representatives of companies such as: MALOEX, BROS, GRUPA INCO, ML, INTERMAS POLSKA, KALNAS, AGARIS POLAND, LASLAND, KRONEN, GEO POLSKA, AGRIMPEX and many others.

Visit GREEN AREA SHOW

Thanks to the presence and involvement of top brands and industry leaders, GREEN AREA SHOW has a chance to develop and be called one of the most key events in the horticultural industry in our country, especially in the sector of machinery, equipment and tools.
